

## DOCTORS FALL IN LINE.

Practicing Physicians recognize the untold reliability of Doan's Kidney Pills by Prescribing them for Backache, Kidney, Bladder, and Urinary Disorders—a tribute won by no other Proprietary Medicine. Four cases cited from "Notes of His Practice," by Dr. Leland Williamson, of Yorktown, Ark.

POSTER-MILBURN CO., Buffalo, N. Y.

YORKTOWN, ARK., Mar. 1, 1904.

**Gentlemen:**—I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and miasmatic; we meet with many and various abnormal conditions of the human family, prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by uramic or chronic uric acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bladder, is caused by excess of uric acid and decomposition of the urine. Hemorrhage is sometimes met with, caused by high state of inflammation or congestion.

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys failing to eliminate the uric acid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed—shock to the nervous system averted, and natural health restored.

I have, for some time, been using Doan's Kidney Pills in these many manifestations and with uniform success, curing most cases. I can further say that even in hopeless cases where they have waited too long, Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and malarial attacks, as verified by the following cases in my practice.

### CASE 1.

THOMAS ORELL, Bear, Ark., age 60. Pain in back for several weeks, then chills, irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and padoph, and Doan's Kidney Pills. After taking four boxes of the pills, patient up and enjoying good health for one of his age.

### CASE 2.

MRS. SMITH, Tarry, Ark., age 29, mother of four children. Had female complaint and kidney trouble, manifest by pain in back and urine irregular; sometimes very clear, changing to cloudy, and with much sediment on standing in chamber. Gave local treatment for female complaint and prescribed Doan's Kidney Pills; after using six boxes she regards herself as cured.

These are a few of the typical cases in which I have used Doan's Kidney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated.

I believe that by the judicious use of Doan's Kidney Pills many serious complications are arrested and many hopeless and incurable cases of Bright's disease prevented.

I have often found that one box of the pills is all that is required to effect a cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent. Yours truly,

Dr. Leland Williamson.

## ALEXANDRA OWNS FINE DOGS.

Her Highness Possesses Great Skill in Training Canines.

Queen Alexandra, who has made her yearly visit to Denmark, the land of her girlhood, is fond of dogs, and has all sorts, sizes and breeds. She possesses great skill in training them, and the pets which she has about her are all capable of wonderful tricks. But there was one dog upon which her majesty confided that in vain she used to cast longing eyes. It was a famous performing canine named Mimos, and it was the rage as a society entertainer. Invitation cards at great London houses used to bear the strange announcement, "To meet the dog Mimos." The following story of this remarkable creature is often told by the Queen, according to an English contemporary: Upon one occasion, when bidden to carry a handkerchief to the most beautiful lady in the room, the mischievous fellow sprang up to Queen Victoria and laid it at her feet. The latter laughed merrily, flicked the dog in the face with her own handkerchief and bade him do his duty honestly. Thereupon the dog picked up his handkerchief and, in great humility, approached Queen Alexandra, then the Princess of Wales, lay down, and placed the handkerchief before her.—Leslie's Weekly.

### WHY HE COULDN'T COME.

Valet Gave Good Reason, But a Poor Excuse.

E. H. Harriman whose controversy with George Gould, in the Northern Pacific-Great Northern plan has been much discussed of late, had some years ago a valet named Banks.

Banks was in a hundred ways an oddity. He took snuff, he wore a wig, he sported a thumb ring, and in the depths of winter protected himself with neither gloves nor overcoat.

Mr. Harriman says that one morning when he awoke he found that Banks had neglected to call him, and that neither his shaving water nor his bath had been prepared. Accordingly he shouted:

"Banks! Banks!"

"Yes, sir," Banks shouted back.

"Banks, where are you?"

"I'm up in my room in bed, sir."

"Why, what do you mean by lying abed this hour in the morning? Come here at once!" Mr. Harriman stormed.

"I can't do it, sir," Banks cried lustily.

"Why can't you do it?"

"I can't do it, sir. I'm drunk, sir."—Albany Argus.

### Turned Him Out.

At this point a man with a harsh, rasping voice rose up in the back part of the hall.

"Will you allow me to interrupt you for a moment?" he asked.

"Certainly," said the candidate, who was presenting his claims in an eloquent speech.

"Didn't you say to the delegation that called on you a few weeks ago that you wouldn't turn your hand over for any office in the country?"

"I did, sir."

"Will you explain what you meant when you said that?"

"Yes, sir. I will make it so plain that any fool can understand it. I said I wouldn't turn my hand over for any office. I meant it, sir," said the orator, in a voice of thunder.

"How can a man turn his hand over without showing the cards he holds? Now, will you quietly go somewhere and soak your head?"

But the friends of the candidate shouldered the man out with more or less noise and confusion.—Chicago Tribune.

### Wiping Out Taxation.

Here is a very important fact which has just arrived from England. It is that English cities are wiping out taxation by applying the principle of public ownership to public conveniences.

The British government has collected figures from about 1,100 towns and cities showing where the public revenue came from. It has discovered that 31 per cent of the revenue comes from the various enterprises owned by the cities, such as gas companies, electric light companies, street cars, water companies, etc.

In 1902 these publicly owned undertakings brought in \$75,359,750, or nearly one-third of the total revenue. The taxes, of course, are reduced by this system of public ownership. The public get better service for less money, and there are fewer private corporations to corrupt public officials. There are no arrogant gas trusts in English cities.—Chicago American.

### Wall of Despondency.

In a fit of despondency a Michigan editor gets off the following, although there is no way of telling whether it is original with him: "We live in a land of high mountains and high taxes; low valleys and low wages; big crooked rivers and big crooked statesmen; big lakes; big strikes; big drinks; big pumpkins; big men with pumpkin heads; silver streams that gambol in the mountains and plous politicians that gambol in the night; fast young men and faster girls; sharp financiers and sharper shoes; fertile plains that lie like a sheet of water and thousands of newspapers that lie like thunder."

### Blindman's Buff.

The hands of the children have blinded his eyes.

They turn him and spin him about; For a moment he stands; then a plunge with his hands.

A scupper, a laugh, and a shout; And it's "Who will he catch?" "It is Nellie or Jack!"

With everyone holding his breath; Then an end to our fun, for the kerchief slips down.

And we see that the Blindman is Death.

## HOW TWO BEAUTIFUL WOMEN ESCAPED DREAD CATARRH BY USE OF PE-RU-NA.

Catarrh Robs Women of Health and Beauty. Pe-ru-na Makes Women Healthy and Beautiful.

Miss Amanda Johnson.

Miss Flora Hauser, 1033 S. New Jersey Street, Indianapolis, Ind., writes:

"I think I must have been troubled with catarrh ever since I was very young, aggravated each time I caught a cold. This did not prove sufficiently serious to be obnoxious until last winter. Then my head and nose were so stopped up that I felt I must do something. Peruna was recommended to me by a friend. I used it for four weeks and found to my relief that it cured me. I have not had a bit of trouble since. My head is clear, and I can safely affirm that Peruna cured me."—Miss Flora Hauser.

No Woman Afflicted With Catarrh Can Be Either Beautiful or Attractive.

Hundreds of Women Cured by Pe-ru-na of Annoying Catarrh.

DR. HARTMAN has probably done more than any other physician toward popularizing a means of escape from the facial deformities, such as watery eyes, twisted nose, offensive breath, dry cracked lips, due to the ravaging effects of catarrh. He has made chronic catarrh a life-long study. His remedy, popularly known as Peruna, is the most famous remedy for catarrh in existence.

Probably there is not a man or woman, boy or girl, within the bounds of the United States that has not heard of Peruna. By far the largest majority have used Peruna.

The multitude of people that have been cured of chronic catarrh by using Peruna can never be known.

A wicked college paper says that thermometers are not the only things that are graduated and get degrees without having brains.

## COSTIVENESS

As a matter of fact there is only one disease, although its manifestations may be various, and there is only one cause for it and that is the retention of waste matters in the system. An eminent physician says: "A large number of the American born suffer from constipation from the time of the diaper until death."

Here lies the secret of all disease: The effete material must be regularly removed or good health is an impossibility.
